Subject: RE: Client follow up

Good morning,

My testimonial...

I have used Noratek Solutions, Inc, City Reporter services for over a year now and I am very pleased with the program. More importantly, they have excellent customer service. If I ever run into a problems they are there to assist. They are quick to respond to my emails and calls. I would recommend this program to any Municipality or region who needs to track building and demolition permits in their area. They do a fantastic job and are a pleasure to work with!

Hope this helps!

Kind regards,

Ashleigh Petoran
